

Project 3

Due on Tuesday, February 28 in class

Your written report should be addressed to Dr. Ken Gardener, Assistant Registrar of the College of Physicians & Surgeons, Alberta

Follow the instructions in Topic 5 and the general guidelines in Topic 2 and Topic

4. As **minimum requirements**, your report **must include**

1. Title (a meaningful and clear title)
2. Summary (report what have been done briefly)
3. Introduction (describe the purpose of this project)
4. A data collection protocol **designed by yourself**
5. A data analysis system (**developed by yourself** capable of handling common data issues)
6. An illustration of your analysis system applied to the data you received, remember to **answer the question stated at the end of Topic 5**.
7. Conclusion and recommendation (any advice that you think will help Dr. Gardener's colleagues, such as choice of software, data entry, presentation, etc)
8. An oral presentation of your report, **focusing on an illustration of the analysis system you developed**, using the data you received.
